Uitrustingsstukken en slijtdelen
Attachments and wear parts

Our quality is your success!

We produceren voornamelijk de volgende uitrustingsstukken:

- Snelwissels
- Banaanbakken
- Dieplepelbakken
- Slotenbakken
- Puinbakken
- Kantelbakken
- Rooirieken en harken
- Palletvorken
- Dichtschuiven
- Rippers voor graafmachines
- Grippers
- Grachtenbakken
- Verdichtingswielen
- Kettingbakken
- Slijtdelen
- Kopplaten voor sloophamers en scharen

We mainly produce the following equipment and accessories:

- Quick couplers
- Cable buckets
- Digging buckets
- Ditch cleaning bucket
- Skeleton buckets
- Tilttable ditch cleaning buckets
- Land rakes
- Pallet forks
- Dozer blades
- Rippers for excavators
- Sorting grabs
- Canal buckets
- Compacter wheels
- Chain buckets
- Wearparts
- Top brackets for hydraulic hammers and shears / crushers

Uitrustingsstukken worden geproduceerd voor machines van 0,5 tot 65 ton zoals:

- Mini en midi graafmachines
- Mobiele graafmachines
- Rups graafmachines

Accessories are produced for machine weight categories 0,5 to 65 tons such as:

- Mini and medium excavators
- Wheeled excavators
- Hydraulic tracked excavators

Voor nagenoeg alle wereldwijde grondverzetmachinemerken

For about all global construction machinery brands

TRACKS

Wij leveren **rijwerkonderdelen** voor machines van 0,5 tot 100 ton zoals:

- Mini en midi graafmachines
- Rups graafmachines
- Dozers
- Schrankladers
- Rupsdumpers

Track parts are produced for machine weight categories 0,5 to 100 tons such as:

- Mini and medium excavators
- Hydraulic tracked excavators
- Dozers
- Skidsteer loaders
- Tracked dumpers

We leveren voornamelijk de volgende rijwerkonderdelen:

- | | |
|------------------------|-------------------|
| • Rubbertracks | • Onderrollen |
| • Kettingen (staal) | • Bovenrollen |
| • Rupsplaten | • Spanwielen |
| • Rubberpads | • Spanveren |
| • Roadliners | • Sprockets |
| • Rupsbouten en moeren | • Aandrijfmotoren |

We mainly supply the following tracks parts:

- | | |
|------------------------|--------------------|
| • Rubber tracks | • Track rollers |
| • Track chains (steel) | • Carrier rollers |
| • Track shoes | • Idler wheels |
| • Rubber shoe pads | • Track tensioners |
| • Roadliners | • Sprockets |
| • Chain bolts en nuts | • Travel motors |

Our quality is your success!

RUBBERTRACKS - RUBBER TRACKS

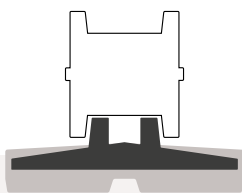

TRACKS EN ROLLEN

De rollen welke op de tracks van jouw machine lopen zijn belangrijk bij de aanschaf van nieuwe tracks. Gelukkig hoef je dit niet allemaal zelf uit te zoeken want wij kunnen je aan de hand van het merk en type van je machine al vertellen wat je nodig hebt.

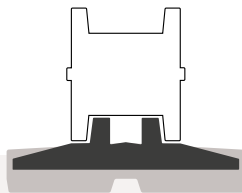

TRACKS AND ROLLERS

The rollers which run on the tracks of your machine are important when purchasing new tracks. Fortunately, you don't have to figure this all out yourself, because we can tell you what you need based on the brand and type of your machine.

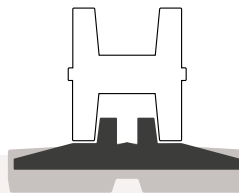

ROLTYPES / ROLLER TYPES

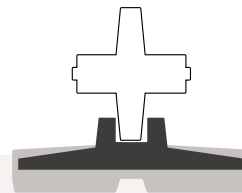

Op de nokken /

ALLES IN HUIS

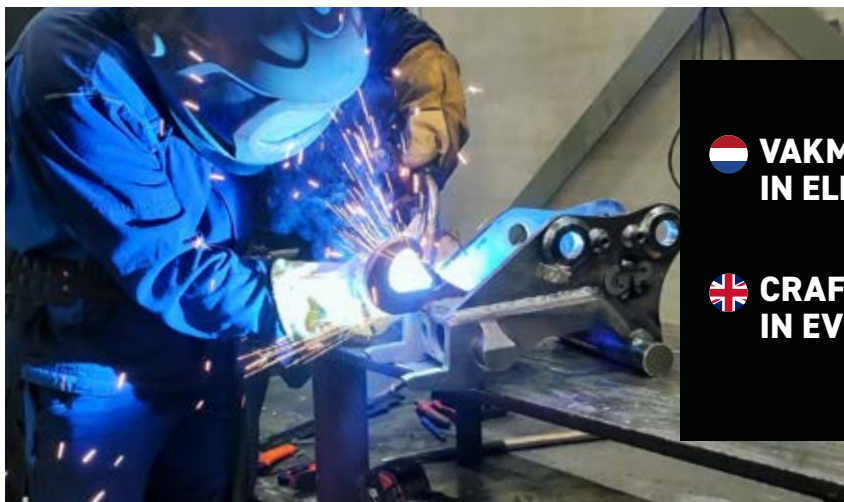

Bij GP combineren we vakmanschap met snelheid. Of het nu gaat om een special, revisie of een nieuw onderdeel – wij regelen het.

Everything in-house

At GP, we combine craftsmanship with speed. Whether it's a special build, overhaul or a new part – we get it done.

▲ Revisie onderwagens
Undercarriage overhauls

 VAKMANSCHAP
IN ELK DETAIL

 CRAFTSMANSHIP
IN EVERY DETAIL

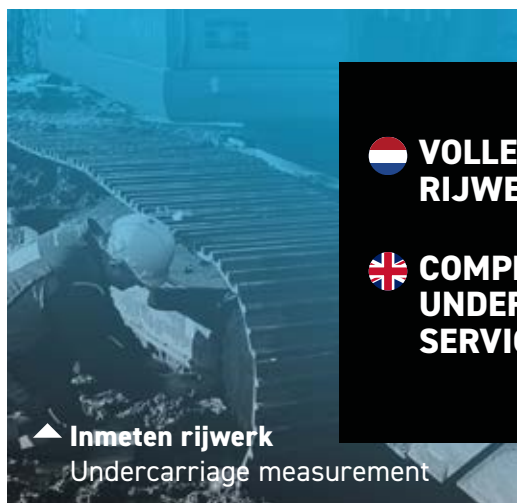

PRECISIE IN DE PRAKTIJK

Met oog voor detail en jarenlange ervaring personaliseren onze vakmensen elke bak tot in de perfectie. Geen standaardwerk, maar maatwerk dat klopt – tot op de millimeter.

Precision in practice

With an eye for detail and years of experience, our skilled professionals customize each bucket to perfection. No standard work, but true craftsmanship – accurate down to the last millimeter.

▲ **Inmeten rijwerk**

 **VOLLEDIGE
RIJWERKREVISIE**

 **COMPLETE
UNDERCARRIAGE
SERVICE**

Revisie bulldozer rijwerk ▲
Bulldozer undercarriage overhaul

 Onze werkplaats is ingericht voor rijwerkrevisie van machines in **alle klassen**. Snel, precies en met vakmanschap.

 Our workshop is set up for undercarriage overhauls on machines of all sizes. Fast, precise, and with true craftsmanship.

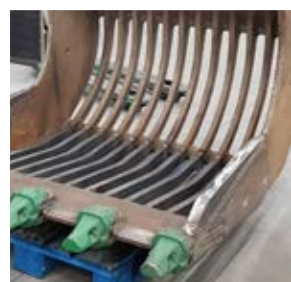

Revisie dragline rijwerk ►
Dragline undercarriage overhaul

VAN SLIJTAGE NAAR TOPCONDITIE

Wij brengen onderdelen terug naar topconditie. Elk onderdeel wordt grondig gecontroleerd, aangepast waar nodig, en getest op prestaties en duurzaamheid.

 **From wear to peak condition**
We restore components to peak condition. Every part is thoroughly inspected, adapted where needed, and tested for performance and durability.

GP Equipment BV is een Nederlands bedrijf opgericht in 2007. Wij zijn gespecialiseerd in de ontwikkeling, constructie, productie, verkoop en service van **uitrustingsstukken en slijtdelen voor grondverzetmachines**.

Teven zijn wij gespecialiseerd in de verkoop van **rijwerkonderdelen** en het **repareren** van de meest uiteenlopende rijwerken van rupsaangedreven machines.

GP Equipment BV is a Dutch company established in 2007. We are specialized in development, construction, production, sales and service of **attachments and wear parts for earthmoving machinery**.

We are also specialized in the sale of **undercarriage parts** and the **repair** of a wide range of undercarriages for track-driven machines.
